# MOHAMED REDA MUSTAFA

COMPUTER SCIENCE ENGINEERING | | INTERESTED WITH ENTREPRENEURSHIP

## OBJECTIVE

An Undergraduate Computer science engineering and interested in web development and Artificial intelligence, seeking for internship in multinational companies in the field of AI and IOT as GOOGLE and IBM to strengthen my technical background, nowadays I resume my journey as web developer.

## EDUCATION

### Faculty of Engineering \_ Zagazig university

2016 - 2021

I am currently studying computer science and programming engineering .

### EXO POWER Project – [electrical & programming] member

1/2019 – 8/2019

ExoPower offers the possibility of walking again instead of using the wheelchair by using a wearable assistive device. EXO POWER is a wearable lower limb exoskeleton orthotic for wheelchair users. They wear it around their legs to enable them to walk again instead of using a wheelchair , and we participated in :

1. Egyptian Engineering Day 2019.
2. ElNekhely make it competition for startups 2019.
3. The International Undergraduate Research Conference of the Military Technical College (IUGRC-2019)

### Technology Innovation & Entrepreneurship Center (TIEC)

Summer of 2018

It was a training from the Ministry of Communications, It was a great week and we learned business management , Ideation and Soft skills .
